Success rate - Scalewatcher has a proven 98% success rate. Tested or reported on by Which! Perfect Homes, Home Building and Decorating, Build It, Practical Householder, Kitchens Bedrooms and Bathrooms, Essential Living and Garden Answers. No other product has this test record and some have no consumer tests.

Audio or radio frequency - Scalewatcher uses a patented audio frequency system. Most other products therefore use radio frequency. This is not as effective and needs more space for two coils and can interfere with radio and TV.
